

Bodhan.AI

Concurrent Evaluation Services for the Bodhan AI Literacy Programme for Teachers

Date: 23 September 2026

Due Date of the tender responses: 3 PM, 7 October 2026

Dear Sir/Madam,

On behalf of the IITM BODHAN-AI FOUNDATION (“BODHAN”), offers are invited for “**Concurrent Evaluation Services for the Bodhan AI Literacy Programme for Teachers**” conforming to the specifications given in the Technical Specification document – Annexure – III, Sections 1 to 4.

As per the Government of India Order, only “Class - I Local Suppliers” and “Class - II Local Suppliers” can participate in this tender.

Instructions to the Bidder

I. Prices: - The offer/bid should be exclusive of taxes and duties. The percentage of tax & duties should be clearly indicated separately.

II. Submission of the Tender: - The tender shall be sent to the address mentioned below, either by post or by courier (duly sealed and super scribed on the envelope with the Bidder’s Email ID, Contact Number, tender reference number and due date & time) so as to reach our office before the due date and time specified in our schedule. The tender may be submitted online through the website <https://bodhan.ai/tenders>.

III. Terms of Engagement: - The selected bidder will be fully responsible for the deployment, quality assurance and delivery of the evaluation services described in this tender, including field data collection, analysis and reporting, in accordance with the timelines and deliverables specified in Annexure III.

IV. BODHAN reserves the full right to accept / reject any tender at any stage without assigning any reason.

SCHEDULE

Important Conditions of the Tender

1. The offers / bids should be submitted under a two-bid system (i.e.) Technical bid and Financial bid. The Technical bid should consist of all technical details / methodology / proposal only, and should not disclose any pricing. The Financial bid should indicate item-wise / stage-wise price for each deliverable and should contain all Commercial Terms and Conditions including Taxes, guarantees, payment terms, pricing terms etc. The Technical bid and Financial bid should be put in separate covers and sealed. Both the sealed covers should be put in a bigger cover. “Tender for Concurrent Evaluation Services for the Bodhan AI Literacy Programme for Teachers” should be written on the left side of the outer bigger cover and sealed. Alternatively, the offers/bid should be submitted through the bodhan.ai website.**Note: Bidder contact details (Email, contact person, Phone number) to be specified clearly on the outer bigger cover for the purpose of sending communication regarding the Technical Bid opening.
2. Bids must be submitted by the bidder in its own name. Where the bidder proposes to engage sub-contractors, consortium partners or regional field partners (e.g., for state-level field investigation) to deliver any part of this assignment, full details of such arrangements must be disclosed in the technical bid, and the lead bidder shall remain solely responsible for all contractual obligations. A firm and its subsidiary/associate concern may not submit separate bids for the same tender.
3. The offers/bids should be for Monitoring, Evaluation and Learning (MEL) / programme evaluation services of a nature and scale comparable to that described in this tender, and which the bidder has previously delivered to other clients. A list of at least five comparable assignments completed in India in the last five years, with client names and contact details, must accompany the technical bid.
4. Documentary evidence (completion certificates, client reference letters, purchase/work orders) in support of similar assignments referred to in the technical bid must accompany the quotation. Photocopies not duly attested will not be accepted.
5. A compliance / confirmation report against each specification and term & condition set out in Annexure III should be submitted along with the technical bid, clause by clause.
6. Validity: The validity of the Quotation should not be less than 120 days from the due date of the tender.
7. EMD: 3% of the tender value has to be paid by means of bank transfer. Bank Account Details for remittance of EMD will be shared by BODHAN's Finance team / are indicated below. Proof of remittance has to be enclosed along with the Technical Bid cover; else the bid will be rejected due to non-enclosure of EMD. This Earnest Money will be returned to unsuccessful tenderers after finalisation of the tender. EMD will not carry any interest and will not be waived except where the bidder is registered as a Micro or Small Enterprise (MSE) under the MSE Procurement Policy issued by the Department of Micro, Small and Medium Enterprises (MSME) and furnishes a valid registration certificate. For others, non-submission of EMD will lead to rejection of the tender at the opening stage itself.

Account Name	IITM BODHAN-AI FOUNDATION
Account No	566501000152
IFSC CODE	ICIC0005665
Bank Name	ICICI
Branch Name	IIT Madras Branch
Account Type	Savings Account

8. **Performance Security:** The successful bidder should remit Performance Security for an amount of 5% of the value of the contract. The Performance Security may be furnished in the form of an Account Payee DD, FD Receipt in the name of “IITM BODHAN-AI FOUNDATION” from any scheduled commercial bank, or a Bank Guarantee from any scheduled commercial bank in India. The Performance Security should be furnished within 14 days from the date of the Purchase Order / Work Order. Where furnished as a Bank Guarantee, it should be routed directly to BODHAN from the issuing bank, and should remain valid for a period of sixty days beyond the date of completion of all contractual obligations, including the final reporting and knowledge-sharing obligations.
9. **Project Timelines:** Time is of the essence for performance of the Bidder's obligations under this Work Order. The tenderer should indicate clearly its compliance with the timelines and work plan indicated in Annexure III (subject to approval of the Executive Committee – BODHAN, and subject to Clause [Force Majeure]). If the Bidder fails to deliver any milestone specified in Annexure III within the agreed timelines, BODHAN shall be entitled to recover, as agreed liquidated damages representing a genuine pre-estimate of the loss likely to be suffered by BODHAN and not by way of penalty, an amount equal to 1% (one percent) of the value of the delayed deliverable for each week or part thereof of delay, subject to a maximum of 10% (ten percent) of the Total Contract Value. Recovery of liquidated damages under this clause is without prejudice to BODHAN's other rights and remedies, including termination for cause under Clause 10, where the delay exceeds [8] weeks or such other period as BODHAN specifies in writing.
10. **Termination and Risk Assignment:** Termination for Cause: In the event of failure of the selected bidder to deliver the contracted evaluation services / deliverables within the stipulated timelines or to the required quality standards, BODHAN shall issue a written notice specifying the failure and granting the bidder not less than fifteen (15) days to remedy it (or immediately, for a failure incapable of remedy). If the bidder fails to remedy the failure within that period, BODHAN has the right to terminate the engagement (in full or in part), forfeit the Performance Security, and assign the remaining work to an alternate service provider at the total risk and cost of the original bidder. Termination for Convenience: BODHAN may also terminate this Work Order in whole or in part by giving the bidder not less than thirty (30) days' prior written notice, without assigning any reason, in which case BODHAN shall pay the bidder for work satisfactorily completed and accepted up to the effective date of termination, and the bidder shall hand over all data, deliverables and work product completed to date in accordance with Clause 20.
11. **Confidentiality, Ethics and Data Protection:** The selected bidder shall maintain strict confidentiality of all data, including any personally identifiable information of teachers, schools or institutions, collected in the course of this assignment. The bidder shall comply with the Digital Personal Data Protection (DPDP) Act, 2023, all applicable ethical research standards (voluntary participation, informed consent, anonymisation and aggregated reporting) and BODHAN's data governance requirements, as further detailed in Annexure III. Any breach of confidentiality or data protection obligations may result in termination of the contract and forfeiture

of the Performance Security. The bidder shall additionally comply with the Data Protection and Information Governance Schedule at Annexure V.

12. Acceptance and Rejection: BODHAN has the right to accept the whole or any part of the tender, or a portion of the scope offered, or reject it in full, without assigning any reason.
13. Do not quote optional items or additional items/services unless expressly requested in the Tender documents / Specifications.
14. Debarment from Bidding: In case of breach of Terms & Conditions, the bidder may be suspended from being eligible for bidding in any contract with IITM BODHAN-AI FOUNDATION for up to 2 years [as per Rule 151(iii) of GFR] from the date of the tender. Bidders should submit an appropriate document, signed by their executive leadership, confirming they have not been debarred from bidding for any public tenders as per GFR rules.
15. Disputes and Jurisdiction: Any dispute, controversy or claim arising out of or in connection with the resulting Purchase Order / Work Order, including any question regarding its existence, validity, breach or termination (“Dispute”), shall in the first instance be resolved amicably between the Parties. If the Dispute is not resolved amicably within thirty (30) days of either Party raising it in writing, the Dispute shall be referred to and finally resolved by arbitration under the Arbitration and Conciliation Act, 1996, as amended from time to time. Unless the Parties agree in writing on a sole arbitrator within thirty (30) days of a written request by either Party, the Dispute shall be referred to a panel of three arbitrators. Each Party shall nominate one arbitrator within fifteen (15) days of the other Party's nomination, and the two arbitrators so nominated shall appoint the third, presiding arbitrator within fifteen (15) days of the appointment of the second arbitrator. If the two nominated arbitrators are unable to agree on the presiding arbitrator within this period, the presiding arbitrator shall be appointed by [name of arbitral institution] on the application of either Party. The seat and venue of arbitration shall be Chennai, and proceedings shall be conducted in English. The award shall be final and binding on the Parties, subject to Part I of the Arbitration and Conciliation Act, 1996. Each Party shall bear its own costs of arbitration unless the tribunal directs otherwise. The Purchase Order / Work Order shall be governed by the laws of India, and courts at Chennai alone shall have jurisdiction over matters not covered by this arbitration clause, including applications for interim relief under Section 9.
16. All amendments, time extensions, clarifications, etc. will be uploaded on the bodhan.ai website only, and will not be published in newspapers. Bidders should regularly visit the website to keep themselves updated. No extension of the bid due date/time shall be considered on account of delay in receipt of any document by mail.
17. Eligibility Criteria: As per the Government of India Order, only “Class - I Local Suppliers” and “Class - II Local Suppliers” can participate in this bidding. Supporting documentation should be submitted as part of the bid response.
18. Selection of Successful Bidder and Award of Order: The order will be awarded to the technically qualified bidder achieving the highest consolidated (Quality-and-Cost-Based Selection) score, as per the condition in para 3A of DIPPI, MoCI Order No. 45021/2/2017-PP (BE II) dated 16th September 2020, and as detailed under the Commercial Evaluation methodology in Annexure III.
19. Preference to “Class I Local Suppliers”: Preference will be given to “Class I Local Suppliers” (subject to the Class-I local supplier's quoted price falling within the margin of purchase preference) as per the Public Procurement (Preference to Make in India) Order 2017, O.M No. P-45021/2/2017 – PP(BE-II) dt. 04/06/2020, subject to the condition that the Class I Local Supplier agrees to supply the service at the L1 rate and furnishes a certificate with the technical bid document that the services provided consist of local content equal to or

more than 50% (certificate from a Chartered Accountant required where the value of the contract exceeds Rs. 10 Crore). ‘Class-I local supplier’ and ‘Class-II local supplier’ are as defined under the above order, with declarations to be provided as per Annexure-I. ‘Margin of purchase preference’ shall be 20%, as defined in the Government of India Order No. P-45021/12/2017-PP (BE-II) Dt. 4th June 2020.

20. Intellectual Property and Data Ownership: All data, evaluation tools, datasets, analytical outputs, reports and other deliverables generated under this assignment shall be the sole property of BODHAN. The selected bidder shall not use, publish, present externally or share any programme data, findings or deliverables with any third party without the prior written consent of BODHAN.
21. Indemnity and Insurance: The Bidder shall indemnify, defend and hold harmless BODHAN, its officers, employees and agents against all claims, losses, damages, liabilities, costs and expenses (including reasonable legal fees) arising out of or in connection with: (a) any breach of the Bidder's confidentiality or data protection obligations under this Work Order or the Data Protection and Information Governance Schedule at Annexure V; (b) any third-party claim arising from the acts or omissions of the Bidder, its personnel or Sub-Processors in the course of this assignment, including any claim by a respondent, school or institution; and (c) any claim that the Bidder's tools, methodology or deliverables infringe a third party's intellectual property rights. This indemnity survives termination or expiry of the Work Order. The Bidder shall, at its own cost, procure and maintain for the duration of the assignment and for twelve (12) months thereafter: (i) professional indemnity insurance of not less than INR [amount]; and (ii) cyber liability / data breach insurance of not less than INR [amount], and shall furnish evidence of both to BODHAN before commencing work and on each renewal.
22. Force Majeure: Neither Party shall be liable for any failure or delay in performance of its obligations under this Work Order (other than payment obligations) to the extent caused by an event beyond its reasonable control, including acts of God, natural disaster, epidemic or pandemic, war, civil unrest, strikes not caused by the affected Party, government-imposed restrictions, or disruption to school access arising from government-mandated academic calendars or examinations not foreseeable at the time of this Work Order (“Force Majeure Event”). The affected Party shall notify the other in writing within seven (7) days of the Force Majeure Event, specifying its likely duration and impact. Timelines under Annexure III shall be extended by a period equivalent to the duration of the Force Majeure Event, and no liquidated damages under Clause 9 shall accrue during that period. If a Force Majeure Event continues for more than sixty (60) days, either Party may terminate this Work Order by written notice, in which case BODHAN shall pay the Bidder for work satisfactorily completed up to that date.
23. Survival: The provisions of Clause 11 (Confidentiality, Ethics and Data Protection), Clause 20 (Intellectual Property and Data Ownership), the Data Protection and Information Governance Schedule at Annexure V, the indemnity clause at Clause 21, and any other provision which by its nature is intended to survive, shall survive the expiry or termination of this Work Order.
24. Severability: If any provision of this Work Order is held by a court or tribunal of competent jurisdiction to be invalid, illegal or unenforceable, that provision shall be severed and the remaining provisions shall continue in full force and effect. The Parties shall negotiate in good faith to replace the severed provision with a valid provision that most closely reflects the original commercial intent.
25. Independent Contractor: The Bidder is an independent contractor. Nothing in this Work Order creates an employer-employee, agency, joint venture or partnership relationship between BODHAN and the Bidder or any of the Bidder's personnel, Sub-Processors or field staff. The Bidder is solely responsible for the payment of wages, statutory dues (including provident fund and ESI contributions) and compliance with applicable labour law in respect of its own personnel.

26. **Anti-Bribery and Anti-Corruption:** The Bidder shall not, and shall ensure that its personnel and Sub-Processors do not, offer, give or agree to give any gift, gratification or other benefit to any official of a State Government, DIET, SCERT, school or other government body in connection with this assignment, in violation of the Prevention of Corruption Act, 1988 or any other applicable law. Breach of this clause entitles BODHAN to terminate this Work Order forthwith and forfeit the Performance Security.
27. **Order of Precedence:** In the event of any conflict or inconsistency between the documents forming this Work Order, the order of precedence shall be: (i) the Purchase Order/Work Order; (ii) this tender document, including its Schedule of Conditions; (iii) Annexure III (Technical Specification); (iv) the Bidder's accepted Technical Bid; and (v) the Bidder's accepted Financial Bid — save that pricing terms shall in all cases be governed by the accepted Financial Bid.
28. **Assignment and Novation:** The Bidder shall not assign, transfer or novate this Work Order, or any rights or obligations under it, in whole or in part, without BODHAN's prior written consent. BODHAN may assign this Work Order to any successor entity or affiliate without the Bidder's consent, on written notice to the Bidder.
29. **Notices:** Any notice under this Work Order shall be in writing and delivered by hand, registered post, or email with delivery confirmation, to the address or email specified in the Work Order, and shall be deemed received (a) on delivery, if by hand; (b) five (5) days after posting, if by registered post; or (c) on the next business day, if by email.
30. **Amendment and Variation:** No amendment or variation of this Work Order, including any change to the Scope of Work, timelines or Total Contract Value, is effective unless made in writing and signed by authorised representatives of both Parties.

Acknowledgement: - It is hereby acknowledged that the tenderer has gone through all the conditions mentioned above and agrees to abide by them.

ANNEXURE – III

TECHNICAL SPECIFICATION – CONCURRENT EVALUATION SERVICES FOR THE BODHAN AI LITERACY PROGRAMME FOR TEACHERS

1. PREQUALIFICATION CRITERIA

Criteria	Proof	Total Marks for Criteria
The Bidder is a formally registered Monitoring, Evaluation and Learning (MEL) / research organisation and has completed at least 10 years or more from the date of incorporation.	Submit the registration certificate as part of the response.	10
The Bidder has completed at least 15 large-scale programme evaluations, impact assessments or implementation research assignments for government, multilateral or philanthropic clients in India in the last 5 years, of which at least 5 are in the education / teacher capacity-building sector.	Submit a list of assignments with client names, scope, value and completion certificates / reference letters.	25
The Bidder has demonstrated experience evaluating technology-enabled or AI-enabled education / digital learning programmes in India in the last 3–5 years.	Submit proof of demonstrated technical capability, including client references and a brief description of the AI/digital-learning evaluation assignment(s) delivered.	25
The Bidder maintains, or has demonstrated the ability to rapidly mobilise, a nationwide network of trained field investigators and supervisors capable of executing multi-state data collection across at least 15 States/Union Territories.	Submit documentation / organograms / past assignment evidence of multi-state field deployment.	20
The Bidder has demonstrated experience engaging with State Government education departments (e.g. SCERT/SIET) and/or central ministries, IITs or Institutes of Eminence on education programme evaluation, monitoring or research assignments.	Submit proof of engagement (work orders, MoUs, client references) and a brief description of how this relationship supported programme delivery or evidence generation.	20

Note: The bidders have to score 70% or higher in this Prequalification phase of evaluation to qualify for the next Technical Evaluation phase.

**2. TECHNICAL CRITERIA**

Criteria	Proof	Total Marks for Criteria
The Bidder presents a detailed Concurrent Evaluation Approach and Evaluation Framework, including a proposed Theory of Change for the Bodhan AI Literacy Programme, and articulates how the evaluation will assess Relevance, Reach, Implementation Fidelity, Effectiveness, User Experience, Adoption and Sustainability across the programme's phased implementation lifecycle (Validation, Pilot, National Roll-out).	Technical proposal presenting the Evaluation Framework and Theory of Change, aligned to Section 4 (Scope of Work) below.	20
The Bidder presents a scientifically robust, multi-stage stratified sampling strategy for Baseline, Midline and Endline rounds – including at least one census-based model and one hybrid (online survey with offline field validation) model – covering the approach to selecting regions, states, districts, schools (as Primary Sampling Units) and teachers (as Secondary Sampling Units), and the data required from BODHAN to build the sampling frame.	Sampling strategy document with proposed survey models, stage-wise sampling methodology and data requirements.	20
The Bidder outlines its mixed-methods data collection and evidence-generation approach, including quantitative survey tools, qualitative tools (Key Informant Interview / Focus Group Discussion guides), case-study methodology, and its plan for triangulating findings with DIKSHA platform analytics and programme MIS / monitoring data.	Methodology note listing proposed tools, data sources and the triangulation / evidence-synthesis approach.	15
The Bidder outlines a Quality Assurance framework covering methodological, operational, data and technical quality – including field supervision, spot checks, back-checks and digital data validation – and a Data Privacy, Security and Information Governance framework demonstrating compliance with the Digital Personal Data Protection (DPDP) Act, 2023.	Quality Assurance plan and a DPDP compliance matrix covering lawful processing, data minimisation, confidentiality, secure storage, access control, retention and incident management.	15

Criteria	Proof	Total Marks for Criteria
The Bidder proposes a governance structure and shares CVs/profiles of key personnel (Evaluation Expert & Project Director, MEL Specialist, Qualitative Expert, Quantitative Expert, Field Operations Manager) with relevant education-sector evaluation experience, together with a detailed work plan / timeline and a continuous learning and adaptive feedback mechanism (periodic learning briefs, interim reports, review meetings).	Team CVs, governance / organogram chart, and a month-wise work plan covering all evaluation stages.	20
The Bidder demonstrates how it will manage risks specific to a concurrent evaluation of a dynamically-enrolling beneficiary population (rolling teacher completions, variable school eligibility across rounds) while maintaining comparability of findings across Baseline, Midline and Endline.	Risk and mitigation matrix; bidders may, on a need basis, be asked to present to the Technical Evaluation Committee.	10

Note: On a need basis, bidders can be asked to present to the Technical Evaluation Committee. The bidders have to score 70% or higher in this Technical Evaluation to qualify for the next phase: Commercial Evaluation.

3. COMMERCIAL EVALUATION

S. No	Cost Head	Bidder's Quoted Price (INR)
1	Professional Fee	
2	Out-of-pocket expenses	
3	Total	
4	Taxes if any	
	TOTAL CONTRACT VALUE (Sum of 3 and 4)	

S. No	Cost Head	Unit / Basis	Bidder's Quoted Price (INR, excl. taxes)
1	Stage 1: Inception and Evaluation Planning (Evaluation Matrix, sampling framework, tool refinement, Inception Report)	Lump sum	
2	Baseline Survey – professional & analysis fees	Lump sum	
3	Baseline Survey – field data collection	Per completed teacher survey (offline)	
4	Midline Survey – professional & analysis fees	Lump sum	
5	Midline Survey – field data collection	Per completed teacher survey (offline)	
6	Endline Survey – professional & analysis fees	Lump sum	
7	Endline Survey – field data collection	Per completed teacher survey (offline)	
8	Qualitative research – Key Informant Interviews	Per completed KII	
9	Qualitative research – Focus Group Discussions	Per completed FGD	
10	Case study development	Per case study	

S. No	Cost Head	Unit / Basis	Bidder's Quoted Price (INR, excl. taxes)
11	Continuous Learning & Adaptive Feedback (periodic learning briefs, review meetings)	Lump sum	
12	Reporting & Knowledge Sharing (Interim Reports, Final Evaluation Report, dissemination workshops, knowledge products)	Lump sum	
	TOTAL CONTRACT VALUE (Sum of 1–12, excl. taxes)		

Commercial Bid Evaluation Approach and Terms & Conditions

- The unit / lump-sum price terms provided by the bidder would be valid for the entire duration of the assignment and for at least 24 months from the date of award of the Work Order.
- The bidder with the lowest Total Contract Value (L1) would get a full score of 100 marks for the Commercial Evaluation.
- The other bidders would get a score based on their Total Contract Value relative to L1. For example, if the lowest bidder's Total Contract Value is L and another bidder's Total Contract Value is P, that bidder's Commercial Evaluation score is $= (L/P) \times 100$.
- For each bidder who has qualified for the Commercial Evaluation phase, a consolidated bid score would be calculated using the Quality-and-Cost-Based Selection (QCBS) method. If a bidder's Technical score is T and Commercial score is C, then their consolidated bid score (CB) $= T \times 0.7 + C \times 0.3$.
- The bidder with the highest consolidated bid score would be awarded the contract for the Concurrent Evaluation assignment.
- Invoicing for each stage / deliverable may be raised on completion and BODHAN's acceptance of the corresponding milestone (e.g., Inception Report, Baseline Report, Midline Report, Endline / Final Evaluation Report), as detailed in the Scope of Work below.
- The payment terms would be Net 30 from the date of BODHAN's acceptance of the invoice.

4. SCOPE OF WORK

4.1 Programme Background

The Bodhan AI Literacy Programme is a national capacity-building initiative designed to establish a scalable and sustainable model for integrating Artificial Intelligence (AI) into classroom teaching. The programme positions AI as a practical assistant that enhances instructional planning, assessment, classroom engagement and administrative efficiency, while reinforcing the principle that teachers remain in control of pedagogical decision-making. It aims to train over one million teachers across India within 12–18 months, enabling them to adopt AI confidently, responsibly and effectively in their professional practice.

The curriculum covers foundational AI concepts, prompt design, responsible and ethical AI use, lesson planning and content creation, assessment and feedback, subject-specific applications, administrative productivity, and guided self-learning through curated exercises and prompt libraries. Implementation follows a phased and iterative rollout strategy – in-house validation, pilot implementation across selected schools, expansion to a larger network of schools, and finally a nationwide rollout across all States and Union Territories – based on a Train-the-Trainer (ToT) and cascade model, delivered through facilitated in-person training via DIETs (with certification on DIKSHA) and self-paced learning directly through the DIKSHA platform.

4.2 Purpose of this Engagement

BODHAN requires an independent, experienced Monitoring, Evaluation and Learning (MEL) service provider to design and deliver a utilisation-focused, mixed-methods concurrent evaluation of the Bodhan AI Literacy Programme. The evaluation must generate timely, credible and actionable evidence throughout the programme's implementation lifecycle – not only assessing outcomes at completion, but continuously informing adaptive programme management, delivery improvements and course correction as the programme evolves from validation through pilot to national scale-up.

4.3 Evaluation Objectives

The overall objective of the concurrent evaluation is to generate timely, credible and actionable evidence on the implementation and effectiveness of the Bodhan AI Literacy Programme, enabling BODHAN to strengthen delivery, facilitate adaptive management, and maximise the programme's impact on teachers' AI literacy and classroom practice. The specific objectives are to:

- Assess the extent to which the programme is being implemented in accordance with the planned design, delivery strategy and phased rollout across different implementation settings.
- Evaluate the programme's reach, participation, completion and engagement among teachers, and identify factors influencing enrolment, retention and successful course completion.
- Examine changes in teachers' knowledge, confidence and self-reported ability to use AI tools for lesson planning, classroom instruction, assessment, content creation and administrative tasks following participation in the programme.
- Assess teachers' experiences with the programme, including the relevance and quality of course content, ease of accessing the learning platform, effectiveness of training modalities, and adequacy of technical and institutional support.
- Identify the key enablers and barriers influencing the adoption and sustained use of AI in teaching and learning across diverse educational and institutional contexts.

- Evaluate the effectiveness of programme implementation mechanisms, including the Train-the-Trainer model, AI Champions, helpdesk support, peer learning communities and other institutional support structures established to promote sustained adoption.
- Generate evidence-based recommendations for continuous programme improvement, including opportunities to strengthen implementation strategies, enhance participant experience, improve learning outcomes, and inform the programme's phased scale-up and long-term sustainability.

4.4 Evaluation Approach and Framework

The selected bidder is expected to propose and deliver a utilisation-focused, mixed-methods concurrent evaluation combining rigorous research methods with continuous stakeholder engagement and periodic evidence sharing. The evaluation must examine both implementation processes and programme outcomes across seven interrelated dimensions: Relevance, Reach, Implementation Fidelity, Effectiveness, User Experience, Adoption, and Sustainability, applied across the results chain from programme inputs and teacher participation through to immediate learning outcomes, behavioural and institutional outcomes, and long-term programme outcomes.

The bidder is expected to develop (in consultation with BODHAN during the inception phase) a Theory of Change linking programme inputs and activities to immediate outputs, intermediate outcomes and long-term impact, recognising that meaningful AI adoption extends beyond individual teacher capacity and depends on an enabling ecosystem – school leadership support, peer learning, technical assistance, AI Champions and continuous access to DIKSHA-based learning resources.

4.5 Sampling Strategy

The bidder shall propose a sampling approach appropriate to the programme's scale at each stage of implementation, drawing on the following indicative survey models, to be jointly finalised with BODHAN during inception:

Programme Scale	Model 1	Model 2	Model 3
Up to ~1,000 schools	Offline census survey of all respondents	Offline survey	Online survey supplemented by offline validation (5 regions / 10 States / 20 Districts / 200 Schools / 1,000 Teachers)
Multiple schools / states across India (national scale)	100% online survey	Online survey supplemented by offline validation (5 regions / 10 States / 20 Districts / 200 Schools / 1,000 Teachers)	Online survey, with selective offline validation on a need basis

For the offline validation / census component, the bidder shall adopt a multi-stage stratified sampling design with schools as Primary Sampling Units (PSUs) and teachers as Secondary Sampling Units (SSUs), selected across the following stages:

- Stage 1 – Selection of Regions: stratification across five geographic regions of India (North, South, East, West, Central), with sample allocation adjusted to reflect programme coverage.
- Stage 2 – Selection of States: two States per region, selected on programme implementation maturity, teacher completion volume, geographic diversity and operational feasibility.
- Stage 3 – Selection of Districts: two Districts per selected State, balancing urban/rural representation, institutional diversity and accessibility.

- Stage 4 – Selection of Schools (PSUs): ten schools per selected District, meeting minimum eligibility thresholds for active programme participation and teacher completion.
- Stage 5 – Selection of Teachers (SSUs): five teachers per sampled school, selected by simple random sampling from the list of programme completers.

As the beneficiary population evolves continuously (schools and teachers join and complete the programme on a rolling basis), the bidder shall adopt an Adaptive Repeated Cross-sectional Sampling Framework for the Baseline, Midline and Endline rounds – drawing an independent representative sample for each round from the most recent programme database, while keeping the sampling structure (number of regions, states, districts, schools, teachers) consistent across rounds to preserve comparability of findings.

BODHAN will provide the bidder with programme administrative data required to build the sampling frame, including: total teachers enrolled/completed; State-, District- and Block-wise completion databases; School-wise completion database with Unique School ID / UDISE code; teacher name, unique programme ID and contact details; date of course completion; school type; and DIKSHA usage records and programme analytics.

4.6 Methodology – Evaluation Stages

The bidder shall deliver the concurrent evaluation through the following structured, stage-wise approach:

Stage	Key Activities
Stage 1: Inception and Evaluation Planning	Inception meetings; review of programme documents; refinement of the Theory of Change and Evaluation Framework; finalisation of evaluation questions, indicators and the Evaluation Matrix; development of the sampling framework; preparation of data collection protocols, quality assurance procedures and ethical safeguards; submission of the Inception Report.
Stage 2: Sampling Strategy	Development of the sampling universe and frame using programme administrative data; respondent mapping; finalisation of the multi-stage stratified sample for each survey round.
Stage 3: Review, Refinement and Pilot Testing of Evaluation Tools	Review of existing BODHAN-developed data collection instruments against the Evaluation Framework; refinement of the Quantitative Survey Tool, Qualitative Research Tool (KII/FGD guides), Document Review and Secondary Data Extraction Template, and (if required) observation checklists / case documentation formats; pilot testing and finalisation of the evaluation toolkit and SOPs.
Stage 4: Data Collection and Evidence Generation	Deployment of trained field teams for quantitative surveys, KIIs, FGDs and case studies; review of programme records and analysis of DIKSHA platform analytics and administrative datasets; continuous field monitoring.
Stage 5: Data Quality Assurance	Investigator training and standardisation; field supervision, spot checks and respondent back-checks; automated validation and consistency checks in digital data collection systems; verification of secondary data sources; internal peer review of analytical outputs and draft reports.
Stage 6: Data Analysis and Evidence Synthesis	Descriptive and comparative quantitative analysis; thematic coding of qualitative data; triangulation and evidence synthesis across primary research, programme documentation, DIKSHA analytics and monitoring systems; development of evidence-based conclusions and actionable recommendations.
Stage 7: Continuous Learning and Adaptive Feedback	Periodic learning briefs; regular evidence review and reflection meetings with BODHAN; documentation of emerging good practices, innovations and implementation lessons; maintenance of a learning repository.

Bodhan.AI

Stage	Key Activities
Stage 8: Reporting and Knowledge Sharing	Preparation of Inception, Interim, and Final Evaluation Reports; executive summaries, thematic briefs and other knowledge products; dissemination workshops and stakeholder consultations; submission of the clean evaluation database and supporting documentation.

4.7 Key Deliverables

Deliverable	Purpose and Description
Inception Report	Refined evaluation methodology, Theory of Change, Evaluation Framework, Evaluation Matrix, sampling strategy, data collection plan, quality assurance mechanisms, ethical safeguards, work plan and reporting schedule.
Evaluation Framework and Matrix	Conceptual framework guiding the evaluation, including evaluation questions, indicators, data sources, data collection methods and analytical approach.
Data Collection Instruments	Structured questionnaires, KII guides, FGD guides, classroom observation checklists (if required), case study templates and data extraction formats, with SOPs and field manuals.
Periodic Learning Briefs	Concise evidence summaries highlighting emerging findings, implementation progress, operational challenges, good practices and actionable recommendations.
Mid-course Recommendations	Structured recommendations from interim findings to support timely course correction and strengthen implementation strategies.
Baseline / Midline / Endline Reports	Periodic analytical reports summarising progress against evaluation objectives, implementation fidelity, stakeholder experiences, programme outcomes and emerging lessons, supported by quantitative and qualitative evidence.
Final Evaluation Report	Comprehensive synthesis of findings covering implementation, effectiveness, AI adoption, institutional support mechanisms, sustainability, lessons learnt and strategic recommendations for scale-up.
Knowledge Products	Executive summaries, thematic briefs, policy notes, case studies, infographics and presentations to support dissemination and institutional learning.
Presentations and Dissemination Workshops	Presentation of key findings, lessons learnt and recommendations to BODHAN and other stakeholders.
Clean Evaluation Database and Supporting Documentation	Validated datasets, codebooks, data dictionaries, analytical outputs and supporting documentation, subject to BODHAN's data-sharing protocols.

4.8 Ethical Considerations

- Participation in the evaluation shall be entirely voluntary, with informed consent obtained from all respondents prior to data collection, and the right to decline or withdraw at any stage without adverse consequences.
- Personally identifiable information shall be collected only where operationally necessary, stored separately from analytical datasets, and findings reported only in aggregated form.
- The evaluation shall be conducted with impartiality, objectivity and independence, free from conflicts of interest.
- Field personnel shall receive orientation on ethical research practices, informed consent procedures, confidentiality requirements and responsible data handling prior to deployment.

4.9 Data Privacy, Security and Information Governance (DPDP Compliance)

The bidder shall implement a comprehensive Data Privacy, Security and Information Governance Framework ensuring all evaluation data are collected, processed, stored, analysed and reported in accordance with the Digital Personal Data Protection (DPDP) Act, 2023, covering: lawful processing and informed consent; data minimisation;

confidentiality and respondent anonymity; secure, encrypted storage with role-based access control; approved-users-only data sharing; a defined data retention schedule; a breach/incident reporting protocol; periodic compliance audits; and a named Data Protection Lead.

4.10 Quality Assurance Framework

The bidder shall embed quality assurance throughout the evaluation lifecycle across four pillars: Methodological Quality (technical review of evaluation design, sampling and tools), Operational Quality (SOPs, field manuals, training, supervision), Data Quality (validation rules, consistency checks, spot checks, back-checks) and Technical Quality Review (internal peer review of all analytical outputs and reports prior to submission to BODHAN).

4.11 Governance Structure and Key Personnel

The bidder shall deploy a multidisciplinary team led by an Evaluation Expert & Project Director (overall strategic oversight and quality) and a Project Manager (day-to-day implementation and primary liaison with BODHAN), supported by a Monitoring, Evaluation and Learning (MEL) Specialist, a Qualitative Expert, a Quantitative Expert, and a Field Operations Manager overseeing Field Supervisors and Field Investigators/Enumerators. CVs for each key position, along with their proposed role on this assignment, must be submitted as part of the technical bid.

4.12 Performance Monitoring and Reporting

The bidder shall establish a structured performance monitoring and reporting mechanism providing visibility into field progress, data quality and deliverable status, including daily internal field progress updates, weekly project progress reviews with BODHAN, monthly progress reports, periodic learning briefs, technical review meetings as required, and a Final Evaluation Report and knowledge products at the end of the assignment.

4.13 Risks and Mitigation

The bidder's technical proposal shall include a risk and mitigation matrix addressing, at minimum: changes in programme rollout timelines; low participant engagement; access constraints due to academic calendars/examinations; variation in programme implementation across locations affecting comparability; data quality risks; delays in availability of programme records/DIKSHA analytics; technology/digital platform issues; respondent fatigue; potential bias in self-reported responses; and risk of delay in completion of deliverables.

4.14 Indicative Timelines

The concurrent evaluation is expected to be delivered over a 12-month period aligned with the programme's phased rollout (Validation → Pilot → National Roll-out), with Baseline, Midline and Endline survey rounds, continuous quality assurance, learning reviews and stakeholder engagement running throughout the assignment. The bidder shall submit a detailed month-wise work plan as part of the technical bid, covering Inception, Sampling, Tool Development & Pilot Testing, Data Collection, Data Quality Assurance, Data Analysis & Evidence Synthesis, Continuous Learning & Adaptive Feedback, and Reporting & Knowledge Sharing.

ANNEXURE – IV

NON-BLACKLISTING DECLARATION

Date: _____

Subject: Non-Blacklisting declaration in connection with Tender Ref. No: _____ for procurement of “Concurrent Evaluation Services for the Bodhan AI Literacy Programme for Teachers”

This is to notify you that our Firm/Company/Organisation _____ (provide Name of the Firm/Company/Organisation) intends to submit a proposal in response to the invitation for procurement of “Concurrent Evaluation Services for the Bodhan AI Literacy Programme for Teachers”. In accordance with the above, we declare that:

- We are not involved in any major litigation that may have an impact on, or compromise, the delivery of services required under this assignment.
- We are not blacklisted by any Central/State Government/agency of the Central/State Government of India or any other country in the world/Public Sector Undertaking/any Regulatory Authority in India or any other country in the world for any kind of fraudulent activity in the last 3 years.

ANNEXURE – V

DATA PROTECTION AND INFORMATION GOVERNANCE SCHEDULE

This Schedule supplements Clause 11 (Confidentiality, Ethics and Data Protection) and Annexure III §4.9, and governs the processing of personal data collected in the course of this assignment.

1. Roles. For the purposes of the Digital Personal Data Protection Act, 2023 (“DPDP Act”) and this Schedule, BODHAN is the Data Fiduciary in respect of all personal data collected, processed or generated in the course of this assignment, and the Bidder (together with any Sub-Processor engaged under Clause 2) shall act as a processor of such personal data solely on BODHAN's written instructions and for the purposes of this assignment.
2. Flow-down. The Bidder shall ensure that every sub-contractor or regional field partner engaged under Clause 2 is bound, before commencing any work involving personal data, by written obligations no less protective than those in this Schedule, and the Bidder shall remain fully liable to BODHAN for their acts and omissions as if they were the Bidder's own.
3. Consent. The Bidder shall obtain informed, voluntary and specific consent from each respondent before data collection, using a consent/notice form approved in writing by BODHAN in advance, identifying the purpose of collection, the categories of personal data collected, the respondent's right to withdraw at any stage without consequence, and the contact details of BODHAN's Data Protection Lead.
4. Scope. Unless expressly authorised in writing by BODHAN, the Bidder shall not collect personal data of any person below 18 years of age, including students, and shall design its instruments and field protocols to avoid recording student-identifiable information even where classroom observation forms part of the methodology. [Open point for BODHAN's confirmation — see accompanying legal review memorandum: whether student data is in fact out of scope.]
5. Security safeguards. The Bidder shall encrypt personal data at rest and in transit, restrict access on a role basis to personnel who require it, store personal data separately from anonymised analytical datasets, and maintain a written data security policy applicable to all field personnel.
6. Data localisation. All personal data collected under this assignment shall be stored and processed exclusively on infrastructure located within India, unless BODHAN gives prior written consent to a specific alternative arrangement.
7. Breach notification. The Bidder shall notify BODHAN's Data Protection Lead in writing within twenty-four (24) hours of becoming aware of any actual or suspected personal data breach, and shall provide all information BODHAN reasonably requires to assess and, if necessary, report the breach.
8. Retention and destruction. The Bidder shall retain personal data only for so long as necessary for this assignment and in any event not beyond [90] days after BODHAN's acceptance of the Final Evaluation Report, save for anonymised or aggregated datasets required to be handed over under Clause 20. On expiry of this period, or on earlier termination of the Work Order, the Bidder shall permanently delete or destroy all personal data in its possession or that of any sub-contractor, and certify such deletion in writing to BODHAN.
9. Audit. BODHAN or its authorised representative may, on reasonable written notice, audit the Bidder's compliance with this Schedule.

Bodhan.AI

10. Survival. This Schedule survives expiry or termination of the Work Order for a period of three (3) years, save that the destruction obligation at paragraph 8 takes effect immediately on expiry, termination, or the retention period lapsing, whichever is earliest.

END
